

# NACL INDUSTRIES LIMITED

Investor Presentation | Q1 FY2023

This presentation may include statements, which may constitute forward-looking statements. All statements that address expectations or projections about the future, including, but not limited to, statements about the strategy for growth, business development, market position, expenditures, and financial results, are forward looking statements. Forward-looking statements are based on certain assumptions and expectations of future events.

The company cannot guarantee that these assumptions and expectations are accurate or will be realized. The actual results, performance or achievements, could thus differ materially from those projected in any such forward-looking statements. The company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, on the basis of any subsequent developments, information or events, or otherwise. While every effort is made to ensure that this presentation conforms with all applicable legal requirements, the company does not warrant that it is complete, comprehensive or accurate, or commit to its being updated. No part of the information provided herein is to be construed as a solicitation to make any financial investment and is provided for information purposes only.

Any person/ party intending to provide finance / invest in the shares/businesses of the Company shall do so after seeking their own professional advice and after carrying out their own due diligence procedure to ensure that they are making an informed decision. In no event shall the company be liable for any damages whatsoever, whether direct, incidental, indirect, consequential or special damages of any kind or including, without limitation, those resulting from loss of profit, loss of contracts, goodwill, data, information, income, expected savings or business relationships arising out of or in connection with the use of this presentation.

Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the company's operations include global and Indian demand supply conditions, finished goods prices, feed stock availability and prices, cyclical demand and pricing in the company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries within which the company conducts business and other factors such as litigation and labour negotiations.

# OPERATIONAL HIGHLIGHTS

- NACL Industries Limited records its highest ever quarterly revenue in Q1 FY2023, as revenue grows by 46% YoY
- Top line growth has significantly improved this quarter, but EBITDA and PAT might have been better, but for the steep increase in the cost of raw material, inputs and energy, which could not be fully recovered
- Exports grew significantly in Q1, with more than 100% growth over the previous corresponding quarter, despite the global supply chain disruptions. A relentless focus on productivity, quality and meeting delivery schedules, have helped keep the order book healthy. The outlook for FY'23 looks promising, with a good forecast for Active Ingredients (AI) and improved Formulations and Trading business
- Domestic retail business witnessed a growth of 16% over the corresponding quarter of last year, despite the rainfall deficit and delayed monsoons prevalent across many parts of the country. This was possible due to higher acceptance of our key brands in the market during placement season and introduction of Herbicides for Soybean & Cotton
- There was an overall growth of 22% over the previous quarter in our domestic Institutional business facilitated by a growth in volume and higher price realization
- The Srikakulam plan has achieved a 13% increase in production over the corresponding previous quarter. Approvals for capacity expansion are already in place and projects are progressing as planned. They are expected to be commissioned from Q2 onwards
- R&D Function is working not only on various AIs and Formulations for overseas and Indian Customers, but also on process improvement projects focused on cost and effluent reduction
- The Greenfield project at Dahej, Gujrat is on the verge of commissioning, and is scheduled to start production soon
- Mr. Pavan Kumar has been reappointed as the Managing Director & Chief Executive Officer (MD&CEO) of the Company for a further period of three (3) years with effect from June 01, 2022, subject to shareholders approval
- Mr. Chantati Varada Rajulu has been appointed as an Additional Director as well as Whole-time Director, designated as Executive Director - Corporate affairs of the Company, for a period of 1 (one) year with effect from June 24, 2022, subject to shareholder approval

DSIR

## Best Company of the Year 2017

NACL has been awarded “Best Company of the Year 2017” presented by International Brand Consulting Corporation (IBCC), USA.

## Greentech Award

NACL has bagged the “Greentech Environment Silver Award” for the year 2018 from New Delhi-based Greentech Foundation, for its best efforts towards environment protection and conservation.

## Suraksha Puraskar

NACL's Srikakulam Unit has bagged the prestigious “Suraksha Puraskar” Award for the year 2017 from the National Safety Council of India, for its best safety practices.

## Certificate of Appreciation

NACL's Ethakota Unit has bagged the prestigious SAFETY AWARD for the year 2018,2019 & 2020 from the National Safety Council of India, for its best safety practices.

## Best Management Award

NACL's manufacturing units situated at Srikakulam and Ethakota, Andhra Pradesh have been conferred with “Best Management Award” by the Government of Andhra Pradesh for the years 2015 & 2018.

## Water Management Award

Srikakulam won CII National Award in Water management for the year 2019.

## Industry Champion Award 2021

NACL's Srikakulam Unit bagged prestigious “Andhra Pradesh Industry Champion Award 2021” from the Government of Andhra Pradesh.

## Indian Agrochemical Market

The agrochemicals market in India is expected to register 8% CAGR to reach US\$ 3.7 billion by FY22 and US\$ 4.7 billion by FY25. With the government propagating the development of the agricultural sector and with the recent proposals under the 'Aatmanirbhar Bharat' package pertinent for the upliftment of the agrarian economy focused on boosting agriculture and its allied, the demand for agrochemicals seems promising.

01

## Food Security

According to an estimate, India would require more than 450 million tonnes of food grains to feed 1.65 billion people by 2050 which will be a very difficult task. Similar challenges the world would face in terms of stepping up food production to meet the growing needs of the world population.

02

## Government Initiative

The matured agro chemical sector has an excellent opportunity to grow in the domestic market and gain considerable share in the global market. The industry is adding sizeable capacities in active ingredients / technicals and formulations manufacturing and also integrating backward into intermediates with increased investment in R&D and sustainable practices. The domestic industry is emerging as a course to reckon within agrochemical world.

03

## Exports

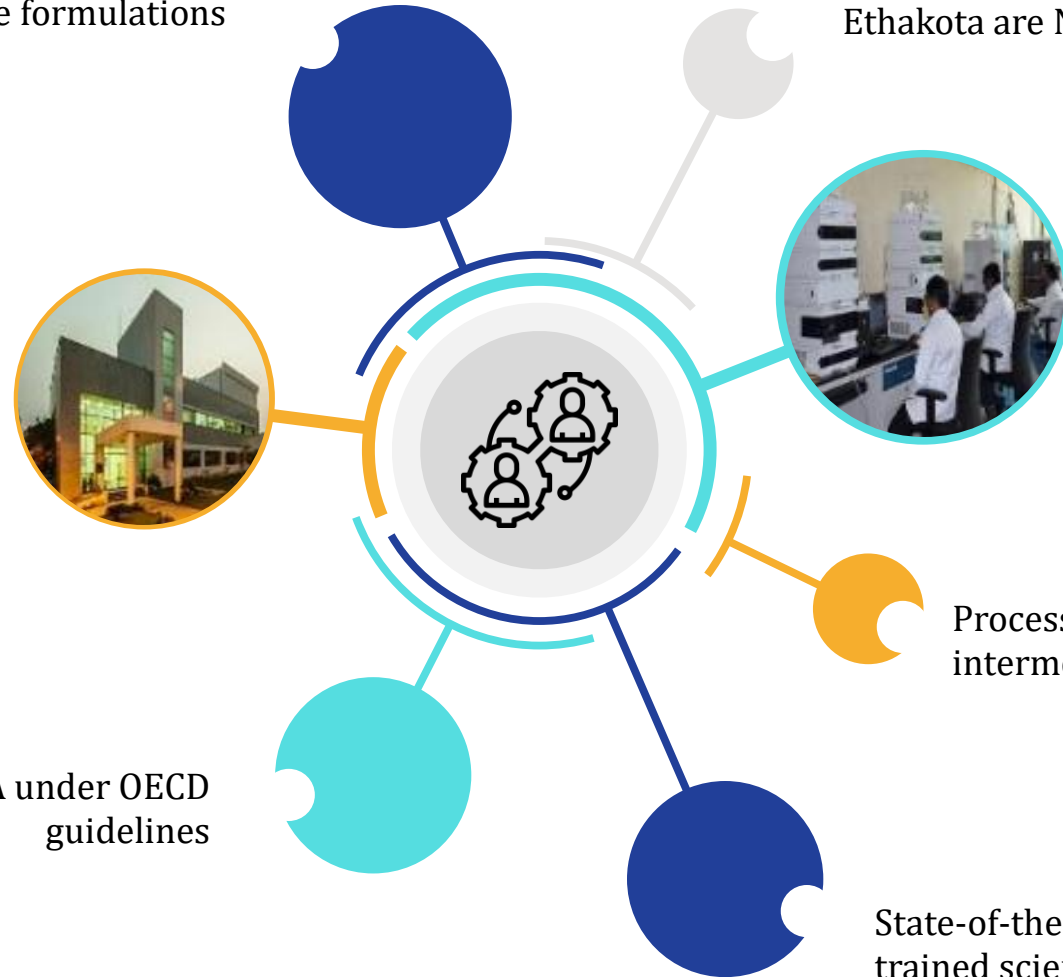

In crop protection chemicals, India is a net exporter. With considerable technical manufacturing capabilities coming up in the Country, India is emerging as a leading destination for sourcing agrochemical active ingredients. The country's exports have increased on account of competitive manufacturing, growing domestic demand, capacity augmentation, product and process development capabilities and technical trained manpower.

04

Development of New generation, environment friendly and safe formulations

R&D labs at Shadnagar and Srikakulam are DSIR recognized. Quality Control labs in the above locations and Ethakota are NABL accredited.

R&D lab is GLP Certified by NGCMA under OECD guidelines

Process development of active ingredients and intermediates

State-of-the-art R&D manned by highly qualified and trained scientists
